

Log Periodic Digital TV Antenna

VHF/UHF (6-12)(28-51) 32 Elements

O1MM-LP03F

For the Best

The LP03F is a VHF/UHF log periodic antenna. The LP03F offers a low-cost solution while still maintaining performance to achieve the best possible pictures for your viewing. Packaged in a five-pack, the LP03F comes ready to install with easy to use snap out elements. In addition, the LP03F is a step above the competition with a professional PCB balun mounted to the front of the antenna with a standard 'F' type fitting for termination.

Features and Benefits

- » Budget antenna for inner city applications
- » Wideband log periodic style
- » Receives channels 6-12 and 28-51
- » VHF elements 7.0mm extruded aluminium tube snap lock design
- » 'F' connector coax front feed on circuit board connection for superior return loss
- » Mounting clamp at the rear creates stub for improved VSWR
