

Log Periodic Digital TV Antenna VHF/UHF (6-12)(28-40) 01MM-V8

For the Best

The 01MM-V8 is a 15 element VHF/UHF combination log-periodic/Yagi hybrid antenna featuring a built-in 4G/5G filter @ 652MHz to help prevent mobile signal inference. Proudly Australian designed, this antenna is made to withstand the harsh Australian environment and built using heavy-duty 9.54mm extruded tube elements. The V8 provides clear signal reception for channels 6-12 and 28-40.

Features and Benefits

- » Outer metro antenna
- » Receives channels 6-12 and 28-40
- » Snap lock design allows reduces space required in the van
- » VHF elements 9.54mm extruded aluminium tube snap lock design
- » 652MHz low pass filter > 40dB attenuation at 750MHz to eliminate 4G/5G (LTE) interference
- » Mounting clamp at the balance point avoids antenna sagging
