

Antenna FM 3 Element 03MM-3EFM

The 03MM-3EFM is a great example of an antenna that gets the basics right. It offers stellar reception for an antenna of its nature. It features 12.7mm elements and is small enough to fit comfortably on most roofs. What's more, the unit comes with black U/V resistant insulators, which do a great job of protecting it from the harshest elements.
