

Digital TV Antenna VHF (6-12) 4 Elements
with Vertical Stand-Off Mount
O3MM-DR3004SP

The O3MM-DR3004SP is a rugged Australian made four-element VHF Yagi antenna, designed for vertical transmission regions and DAB/DAB+ digital radio reception. Delivering up to 7dB gain with a built-in 4G/5G LTE filter, it reduces interference to ensure crystal-clear viewing and audio. Constructed from heavy-duty 12.7mm extruded aluminium, it's built to withstand Australia's harsh conditions. Supplied with a 15" stand-off mount, the DR3004SP is ideal for metro band three and high-signal areas, including reliable DAB+ radio coverage.

Elements	4
Band	B3
Channels	(6-12)
Maximum Gain	7dB
Front/Back Ratio	16.8dB
Boom Dimension	25 x 19mm
Boom Length	795mm
Packing Unit	1

Features and Benefits

- » 4-element VHF yagi antenna with 15" stand-off mount for vertical transmission regions or DAB/DAB+ radio
- » Receives channels 6-12 (174-230 MHz) with a built-in 4G/5G LTE 652MHz low pass filter providing up to 7dB of gain
- » 12.7mm heavy-duty extruded elements for maximum strength and durability
- » IP66 balun casing is perfect for use in coastal areas to help prevent moisture and salt ingress
- » Elements with snap-lock design for fast installation
