

Digital TV Antenna VHF (6-12) 6 Elements (Box) 03MM-DR3006

For the Best

The 03MM-DR3006 is a six-element Yagi style antenna receiving channels 6-12 with a maximum gain of 8.1dB. The antenna features a 4G/5G LTE filter built in to help eliminate interference and deliver you the best possible pictures for your viewing. With the elements constructed from heavy-duty 12.7mm extruded aluminium tube, the DR3006 is well designed to handle the harsh Australian environment. The DR3006 is suited for most metro band three reception areas, including the reception of DAB+.
