

# Digital TV Antenna VHF (6-12) 6 Elements (5 Pack/Box)

## 03MM-DR3006AP

The 03MM-DR3006AP is a six-element Yagi style antenna receiving channels 6-12. The antenna features fully assembled snap lock elements, making it simple, quick to assemble, and ready for installation. All you need to do is attach the dipole to the boom, and you are ready to go. With a 4G/5G 50dB LTE filter built in to help eliminate interference and deliver you the best possible pictures for your viewing. With the elements constructed from heavy-duty 12.7mm rolled aluminium, a powder coated heavy duty boom and a weatherproof dipole balun, the DR3006AP is the ultimate installer's choice. The DR3006AP is suited for most metro band three reception areas, including the reception of DAB+.

### Features and Benefits

- » Installer friendly six element one piece VHF yagi antenna with snap lock elements.
- » 4G/5G 50dB LTE 652MHz low pass filter
- » Centre mounted for a balanced and level installation
