

# Phased Array Digital TV Antenna VHF (6-12) Vertical/Horizontal with Balun 8 Elements O3MM-LITTLERAY

*For the Best*

The O3MM-LITTLERAY is a phased array medium gain VHF antenna receiving channels 6-12. The LITTLERAY is perfect for use in medium range and rural reception and in areas of undulation where your line of site to the broadcast station may be poor. The phased array design helps maximise signal gain while cancelling unwanted signals helping provide you with the best possible results in fringe reception zones. Made from 12.7mm extruded heavy-duty elements, the LITTLERAY is guaranteed to last and comes with Matchmaster's Gold Lifetime Manufacturer Warranty.
