

MAGNA Black High Gain 10 Element Hybrid Digital TV Antenna VHF (6-12) with 50dB 4G/5G Filter

O3MM-MB300

For the Best

The MB300 MAGNA Black is a 10-element high gain VHF Log Periodic/Yagi Hybrid antenna. Featuring a black powder-coated boom, the MB300 seamlessly blends into the background of modern homes and buildings. The MB300 is an excellent choice for performance and aesthetics in one package. The MB300 also features a built-in 4G/5G filter to help prevent mobile signal interference. Australian made and fully assembled with snap-out elements ready to install.

Features and Benefits

- » Featuring a newly designed black boom to help blend into today's modern builds
- » 4G/5G filtering built-in with up to 50dB rejection in 700MHz band
- » Fully assembled with snap out elements to save you on installation time
- » Typical 9dB VHF gain with 18dB front to back ratio and <2:1 VSWR
- » 12.7mm heavy-duty rolled elements for maximum strength and durability
- » Australian made for maximum quality, performance and reliability
- » Supersedes: O1MM-MAGNA25V
