

Toslink Right Angle Adaptor 04MM-TOS-RA

The 04MM-TOS-RA is a 90-degree TOSLINK adaptor for tight spaces behind devices like TVs, set-top boxes and audio receivers. It protrudes by 20mm from the device and features a rotatable male connection which allows users to spin the adaptor around until they find the perfect angle.

Features and Benefits

- » Right angle for tight or confined spaces
- » Protrudes by 20mm from connected device
- » Rotatable male connection to allow you to spin the adaptor to the perfect angle
- » Gold flashed ends for a secure connection
