

# 20m Toslink Male to Male Lead including Right Angle Adaptor 04MM-TOS20

The 04MM-TOS20 is a 20m TOSLINK short-range cable that connects your TV, DVD or Blu-ray player, gaming console, or similar devices to a sound bar or audio receiver. A protective outer jacket covers the fibre optic cable and supports many audio standards, including 5.1, 6.1 and 7.1 Dolby digital surround sound for superb audio quality. The TOS20 can be used with the 04MM-TOS-RA adaptor if a connection in a tight space is required.
