

# 1.5m RG59 Quad 'F' Male to 'F' Male Flylead 05MM-FLY01

*For the Best*

The 05MM-FLY01 is a 1.5m 75 Ohm RF fly lead made from quad-shield RG59 cable with moulded F-type male terminations—the FLY01 connections between wall plates and set-top boxes or TV. The quad-shield screening helps prevent noise ingress and protects your signal from interference to provide the best viewing experience.

## Features and Benefits

- » Fixed 'F' type male connections for sturdy design
- » 1.5M coaxial flylead
- » HDTV compliant
- » Provides 90dB screening effectiveness
- » Coaxial cable provides 4 layers of shielding for extra protection from ingress
