

Loop Plate with Tap Mechanism 21dB 05MM-LP21

The 05MM-LP21 is Foxtel approved and ideally suited for MATV and SMATV projects where re-cabling is impossible or too costly. The LPxx series wall plate taps are perfect for upgrading existing looped RF systems in older buildings. The LP21 features a side loss of 21dB while passing the RF signal to multiple inline outlets. The LPxx series taps suit Matchmasters WP and Clipsal 2000 series compatible switch plates.

Features and Benefits

- » Ideal for building upgrades that require complex cabling
- » 21dB tap loss
- » Includes one outlet plate insert
- » Used to distribute TV reception across multiple outlets
- » Also suitable for most Clipsal® outlet plates

Tap Loss	21dB
Through Loss	≤4dB
Tap to Output Isolation	>18dB
