

34mm Mounting Block 05MM-MB449A

The 05MM-MB449A is a white, standard profile mounting block allowing you to mount electrical, TV, A/V and data wall plates to solid surfaces such as brick, concrete and timber where surface mounting is required. The MB449A provides 34mm mounting depth and features multi-position mounting holes and conduit entry points for your convenience. It suits most standard Australian and New Zealand wall plates.

Features and Benefits

- » Suitable to increase outlet plates by a depth of 34mm
- » Multi positioned mounting holes
- » Suits standard size wall plates
- » White mounting block
