

Satellite/TV Outlet Plate With FM Power Pass 05MM-WP05

The 05MM-WP05 is a TV and FM outlet plate designed to improve signal distribution and minimise interference to your TV or set-top box tuner. It provides separate ports for FM and TV/Satellite connections from a single outlet, including a dedicated FM receiver connection for enhanced audio performance.

Features and Benefits

- » Dual signal output: Separate FM and TV/Satellite connections from one outlet.
- » Reduced interference: Filters unwanted frequencies for a clearer signal.
- » Dedicated FM port: Optimised connection for FM receivers.
- » DC power passing: Supports DC voltage where needed.
- » Wide frequency range: FM, FTA TV, and Satellite compatible.
- » Glossy finish: A sleek surface for a clean, professional appearance.
