

## 2 Way Wall Plate Splitter DC Only Power Pass (Suits Matchmaster and Clipsal 2000 Series) 07MM-SP52C

*For the Best*

The SP52C is a 2-way wall plate splitter featuring an all-port DC power pass with a 5-2400MHz range. The SP52C is designed to click into Matchmasters 2 gang 05MM-WP52 switch plates and also fits standard Clipsal 2000 series 2 gang switch plates. The wall plate splitter allows you to have one cable from the TV antenna or satellite system to the outlet location and then split out to connect to two local devices such as a TV and STB or FM/DAB+ tuner.

### Features and Benefits

- » Frequency range: 5-2400MHz
- » DC only all port power pass
- » 10dB extra screening with soldered back
- » Wall plate fitting with supplied inserts
- » High isolation between outputs
- » Splits cables at the TV point for multiple devices
