

Adaptor 'F' Female To IEC Male Right Angle (5 Pack) 08MM-A14-5P

The 08MM-A14-5P is a five-pack of 'F' type female to IEC (PAL) male right-angled adaptor, adapting any 'F' type male connector by 90 degrees. The A14 can assist connections from wall plates or the back of TVs or other devices where the cable bend radius is restricted. The A14 is suitable for use up to 1000Mhz.

Features and Benefits

- » Used to adapt 'F' type male connections to IEC (PAL) male with 90-degree bend radius
- » Perfect to use behind TV cabinets and wall-mounted TVs to connect to wall plates in tight spaces
- » No tools required
- » High-quality nickel-plated finish for long-life corrosion resistance
- » All metal construction for durability
