

'F' Male to IEC (PAL) Male Adaptor (20 Pack) 08MM-A1

The 08MM-A1 is an 'F' type male to IEC (PAL) male adaptor to adapt any F-type female connector to a PAL male connection. In addition, the A1 can adapt lead ends ready for connection to IEC (PAL) female receivers (TVs, tuners, wall plates, etc.) or any other application where you need to convert an F-type female connector to a PAL male connection.

Features and Benefits

- » Used to convert 'F' type female connectors to IEC (PAL) male
- » No tools required
- » High-quality nickel-plated finish for long-life corrosion resistance
- » All metal construction for durability
