

Crimping Tool for RG59, RG6 and RG11 Connectors

08MM-CT611

The 08MM-CT611 is a hex crimping tool for RG59, RG6 and RG11 'F' type, BNC and IEC hex crimping style connectors. The hex crimping tool jaws are made from heavy-duty cast metal, with the rest of the tool body made from heavy-duty steel with nonslip rubber hand grips for comfort and ease of use. The tools crimp force is pre-set at the factory for optimal operation and results.

Features and Benefits

- » Suitable for RG59, RG6 and RG11 coaxial cable
- » Provides a leverage system to present less strain on hands
- » Non slip PVC handle
- » Adjustable crimp force
- » Heavy-duty design
- » The ideal tool for speed and ease when working with crimp connectors
