

RG6 'F' Push-on Compression Connector (100 Pack)

08MM-CX3FSC

The 08MM-CX3FSC is a professional grade Cabelcon 'F' type push on compression connector that can quickly connect to any 'F' type female connector. The CX3FSC is suited for use with RG6 dual, tri and quadshield cables. Perfect to adapt an RF test lead to allow easy outlet or antenna testing without the need to physically screw onto the 'F' type female RF ports.

Features and Benefits

- » Used to quick connect to 'F' type female connectors by simply pushing on
- » Used with Matchmaster compression tool (08MM-CT07)
- » High-quality nickel-plated finish for long-life corrosion resistance
- » Suitable for use to 3000MHz
