

Stripping Tool for RG58, RG59 and RG6 (08MM-CRIMPKIT Component)

08MM-HT-332

The 08MM-HT-332 is a triple blade cable stripper suited for RG58, RG59 and RG6 cables. Each blade cuts at a set distance apart with adjustable depths to meet your cable needs. The HT-332 is the supplied stripper in the 08MM-CRIMPKIT, allowing it to be purchased separately if the original is lost or damaged.

Features and Benefits

- » Suitable for RG58, RG59 and RG6 coaxial cables
- » Adjustable three-blade stripping system to help remove outer foil and braid layers for easy connector insertion
- » Compact, lightweight design
- » Spring-loaded to assist with cable cutting
