

RG6 Quick Mount Universal Compression Connector (100 Pack) 08MM-QM06

For the Best

The 08MM-QM06 is a professional grade Cabelcon RG6 Quick Mount connector designed to fit quad, tri and dual shield RG6 cables, suited ideally to Matchmasters 06MM-E6Q series. The Quick Mount technology allows for quick terminations saving you time and eliminating the need for removing or peeling back layers of braid and foil. The QM06 is designed for use in CATV and satellite networks thanks to its high ability to pass high frequency to 3000MHz

Features and Benefits

- » Wideband operating frequency range 0.3 - 3000 MHz
- » No need to pull back the braid or remove the foil sheath-like traditional connector
- » Just strip the cable, place it on the connector and compress
- » Used with Matchmaster compression tools (08MM-CT01S & 08MM-CT07)
- » Integrated O-ring to create a watertight seal to prevent any unwanted ingress
- » Perfect for use in all CATV and satellite networks
