

## 4' x 1" Mast (1.22m x 2.54cm) 11MM-4FTS

*For the Best*

The 4FTS is an Australian made 1.22m x 25.4mm steel tube mast for mounting antennas and accessories. The 1.2m mast can be used with TRIPOD-M and TRIPOD-T base plates as well as SRD and LARM mounts. The mast is made from a galvabond round steel tube with a wall thickness of 2.1mm for durability and protection from corrosion in harsh environments.

### Features and Benefits

- » Australian made mast for Tripod-M and Tripod-T bases and SRD mounts
- » Length 4' (25.4mm x 2.1mm x 1.22m)
- » Galvabond finish for superior corrosion resistance
- » It can be used with tile, metal, clip lock and colour bond roof mounts
