1.2m Tripod Mount for Tiled Roofs
11MM-TRIPOD-T

The TRIPOD-T is a 1.2m two-piece antenna mount specially designed for use on tiled roofing. Hot-dipped galvanised for the highest quality protection against the harsh Australian environment; this is especially important in coastal areas where salt corrosion quickly destroys cheaply coated or unprotected metals. Quick and easy installation by drilling and fastening with screws to the roof batten at the tile overlap via slotted fastening points in the base plate.

Features and Benefits

- Designed for mounting on tiled roofing
- Galvanised finish for optimum corrosion protection and peace of mind
- Two-piece kit consisting of a base plate with a 1.2m mast
- Quick and easy installation
- Sturdy and robust design for maximum durability
