

80cm KU Band Satellite Dish (5 Pack) 13MM-R80P-5

The R80P-5 is a convenient bulk five-pack of 80cm dishes for KU band satellite reception. The R80P is an offset satellite dish made from heavy-duty galvanised steel with a durable polyester powder coat finish. The dishes are suitable for the reception of VAST, Pay TV, and other available KU band satellite services between 10.7 GHz and 12.75 GHz.

Features and Benefits

- » Bulk five-pack 80cm offset KU band satellite reception dishes
- » Rolled edges for added strength
- » Gain of 39.7dB at KU band 12.75GHz
- » Compatible with satellite mount diameters 38 to 50mm
- » Made from galvanised steel with a polyester powder coat finish for high durability
- » Azimuth adjustment 0° - 360° and elevation adjustment 15-75°

Type	Offset
Offset Angle	26.57°
Reception Frequency	10.70 - 12.75 GHz
Ku-Band @ 12.75 GHz	39.70 dB
Focus Length	405 mm
Efficiency	75% min
Horizontal Axis	81 cm
Vertical Axis	90.6 cm
Azimuth	0° - 360°
Elevation	15° - 75°
F/D Ratio	0.5
Material	Galvanized Steel
Finish	Polyester Powder Coating
Available Color	Dark Gray / gray
Suitable Pole Diameter	38mm - 50mm
Relative Humidity	0% - 100%
Operating Temperature	-40°C ~ 60°C
