

TERRA DC Distribution Cable - 12 Connectors 14MM-DC412

The TERRA DC412 is a DC distribution cable suited for use with the UP413 power supply to power TERRA's 400 series headend and fibre equipment. The DC412 works with two 14MM-UP413 power supplies in parallel to allow power redundancy while still having enough connection terminals available to power your headend modules, 12 DC connectors in total.

Features and Benefits

- » DC distribution cable for use with 14MM-UP413 power supplies for power redundancy
- » 12 x DC connection plugs
- » Used to power TERRA's 400 series headend modules and fibre transmitters
- » Simple plug and play solution
