

Jacket Stripping Tool for .500" PIII Cables 18MM-JST500

For the Best

The 18MM-JST500 is a professional series jacket stripping tool for .500" PIII cables. The JST500 is compatible with all reputable .500" cables, including flooded and non-flooded cables. The JST500 is a must-have tool for correct and easy cable preparation.

Features and Benefits

- » Fast and efficient removal of jackets from trunk and distribution of hardline coaxial cables
- » Pre-set JST blades minimise scoring or nicking of the aluminium
- » Knurled body for a sure grip
- » Solid metal body for long life use
