

'F' Female to KS Port Adaptor 18MM-KSFA

The 18MM-KSFA is an 'F' type to KS 5/8" 75 Ohm adaptor used in CATV amplifier and tap/splitter housings to convert 5/8" KS ports to an 'F' type fitting. The KSFA is made from 6262 aluminium and features a long stinger that can be trimmed to length at the point of installation. The connector also features an O-ring to make for a watertight connection.

Features and Benefits

- » 5/8" KS interface to 'F' type series female adaptor made from 6262 aluminium
- » Greater than 16dB return loss at 1GHz
- » Operating frequency range DC-1GHz
- » Used to adapt amplifier and CATV outdoor taps and splitters to 'F' type connections
- » 75 Ohm impedance
- » Foxtel (F30163), Telstra (739/112) approved
