

KS to KS Rotational 18MM-KSKSR

The 18MM-KSKSR is a KS 5/8" 75 Ohm male adaptor used in CATV amplifiers, tap/splitter housings and cable end terminations. The KSKSR is made from 6262 aluminium and features a long stinger that can be trimmed to length at the point of installation. The connector also features an O-ring to make for a watertight connection.

Features and Benefits

- » Made from 6262 aluminium alloy for excellent corrosion resistance with brass contact pins with tin plating
- » Brass contact pins with tin plating for excellent RF conductivity
- » Moisture-proof design with EPDM O-rings
- » DC-3GHz frequency rating
- » Foxtel (F30160) and Telstra (739/100) approved
- » 1" hexagon size used on the body
