

KS 5/8" to 'N' Type Female with Nitin 6 Plating 18MM-KSNF

The 18MM-KSNF is a professional series Cabelcon KS 5/8" to N type female 75 Ohm adaptor. The KSNF is made from solid brass with Nitin-6 plating for long life and durability. Perfect for adapting amplifier and other hardware housings from KS 5/8" ports to N female to match your cable termination. The connector also features an O-ring to make a water-tight connection to the housing.

Features and Benefits

- » Premium quality Cabelcon hardline 5/8" KS to N-Type 75 Ohm adaptor
- » Designed to adapt professional level amplifiers, splitters/taps or other hardware KS ports to N-Type
- » Greater than 30dB return loss at 1GHz
- » Operating frequency range DC-3GHz
- » Solid brass body with Nitin-6 plating
- » Housing adaptors make it very easy to connect and disconnect the cable/ connector assembly from active and passive trunk components without removing the connector from the cable.
