

.500" PIII to KS 5/8" Male Connector 18MM-PI500CH3

For the Best

The 18MM-PI500CH3 is a KS 5/8" 75 Ohm male to .500" connector used in CATV amplifiers, tap/splitter housings and cable end terminations. The PI500CH3 is made from 6262 aluminium and features a long stinger that can be trimmed to length at the point of installation. The connector also features an O-ring to make for a watertight connection.

Features and Benefits

- » Designed to terminate you .500" hardline cables directly to splitter/tap and amplifier KS 5/8" housing ports
- » Made from 6262 aluminium alloy for excellent corrosion resistance with brass contact pins with tin plating
- » Moisture-proof design with EPDM O-rings
- » Connectors are designed for all major CATV cable manufacturers
- » Foxtel (F30155) and Telstra approved
