

75 Ohm 5-2500MHz 6kV Isolator 19MM-ISO-6KV

The 19MM-ISO-6KV is a category A3 6kV surge protector for use in any MATV, SMATV 75 Ohm coaxial systems to isolate buildings linked by underground coaxial cabling. The ISO-6KV is Foxtel approved for use in SMS (Satellite Multi Stacker) backbone or five-wire solutions.

Features and Benefits

- » Foxtel approved (F31152) building isolator for satellite solutions
- » Output withstands IEEE C62.41-1991 category A3 surge 6kV
- » 5-2500MHz rated with F-type ports for easy connection
- » Compact die-cast housing with earthing terminal included
- » Plastic isolated F-type fitting for network side input
