

# 5 Wire Fibre Transmitter Kit with External DWDM

## 20MM-LT4X2050-KIT

*For the Best*

### Features and Benefits

- » 47-862 & 950-2500MHz RF operating bandwidth
- » Suitable for CATV & satellite-IF application
- » Optical transmitter CATV adopts high-linearity IF drive amplifying circuit with AGC function
- » SNMP support remote management and control
- » Laser chip using Broadband LiNbO3 external modulation, narrow-linewidth CW DFB laser
- » SCAPC output connectors are used for television optimisation
