

50m 4K High-Speed HDMI® Extender Over Cat 6 18Gbps HDCP 2.2 with ARC/eARC

34MM-4KARC-50

4K HDR HDMI® transmitter and receiver over CAT6 (up to 50m) supporting 18Gbps HDCP 2.2 and ARC/eARC. The 4KARC-50 can extend your 4K signal to a second TV with remote IR control without losing video or audio quality. Pay TV compliant IR receiver and transmitter included. ARC and eARC allow the audio content from the TV to be delivered back to the HDMI® source.

Features and Benefits

- » Extend 4K HDR Ultra High definition picture and sound from an HDMI® source up to 50m using a single CAT6 cable.
- » ARC and eARC (Enhanced Audio Return Channel) function, allowing TV digital audio across HDMI® sources. CEC code transfer is also supported, allowing the remote control to function.
- » Remote IR control from the extender to a source using supplied IR accessories (compatible with pay TV IR remotes)
- » eARC audio return format: PCM 7.1 192KHz, Dolby Atmos, DTS:X DDHD 7.1, Dolby Digital, Dolby Digital Plus, DTS, Dolby TrueHD, DTS-HD MA, Dolby Atmos, DTS:X Master Audio
- » ARC/SPDIF audio return format: PCM 2.0, Dolby 5.1CH, DTS 5.1CH
- » Support HDR, HDR10, HDR10+, Dolby Vision, HLG
