

# HDMI® Extender Over Single UTP Cables with IR Control 34MM-HDMI-EXT-50M

*For the Best*

HDMI® extender splitter with 1x HDMI® input, 1x HDMI® output and 1x CAT5/6 extended output with bi-directional IR control and PoC. The HDMI-EXT-50M allows you to split your full HD standard speed HDMI® source into one additional display while keeping your main display connected to the HDMI® loop through.

## Features and Benefits

- » Allows HDMI® Audio/Video and IR signals to be transmitted over a single CAT5e/6 cable.
- » Transmission Range: Extends 1080p resolution up to 164ft/50m over a single CAT5e or CAT6 cable
- » Support copy EDID from receiver display or loop out display
- » Supports 3D
- » HDMI® loop out port allows for cascading additional extenders or local TV connection
- » Supports Power over cable function PoC. Only one power supply needed
