

IR Repeater USB Cable 34MM-IR04

For the Best

The IR04 is an all in one IR extension kit that powers via USB locally from the TV or a separate USB power source. An IR04 is perfect for TVs with sources hidden away in a closed cabinet where the IR signal cannot reach. The IR04 allows control of up to 3 devices remotely.

Features and Benefits

- » Plug & Play USB powered IR extender cable
- » 1 x IR receiver with 3 x IR blaster into one USB powered cable for plug and play installation
- » Frequency bandwidth: 30-60KHz (Foxtel compatible)
- » 2.1m Length to easily pass through walls
- » IR receiver with LED activity indicator
