

IR Expansion Block 1x RJ45 Plug to 4x RJ45 Socket 34MM-IR4X

IR expansion block for either adding extra 34MM-IR-RX receivers, or 34MM-IR-TX emitters, to the 34MM-IRKIT

Features and Benefits

- » Simple plug and play to add up to 4 IR Receivers (34MM-IR-RX) allowing system control to other parts of the home.
- » Used to add up to 4 dual IR Transmitters (34MM-IR-TX) allowing additional components to be controlled in other parts of the home
- » Can be daisy chained together to increase number of connections as required (maximum 8x 34MM-IR-RX)
- » Simple RJ45 connection allowing expansion block to be installed remotely to main control unit.
