

BNC Clamp Plug for RG213 Cable

56MM-BNC213CL

The 56MM-BNC213CL is an RG213 solder inner, clamp outer style connector, high-quality nickel plating with gold plating on the centre pin contact and soldering surface. Unlike silver-plated connectors, it has high resistance to tarnishing.

Features and Benefits

- » Clamp style BNC for use with 10mm OD 50 ohm RG213 coaxial cables
- » Impedance: 50Ω Nom.
- » Durability >= 500 cycle
- » Nickel-plated brass connector and gold plated centre pin, solder style
- » Suitable up to 2GHz
- » Teflon dielectric
