

# BNC Plug to 'N' Type Plug Adaptor 56MM-BNCP-NP

The BNCP-NP is a straight-bodied BNC Male to 'N' Male adapter designed to connect Female BNC interfaces to Female 'N' interfaces. Supporting frequencies up to 3 GHz and with a free spinning 'N' nut, the adaptor is suited to many installation applications. Made from high-quality nickel-plated brass, the BNCP-NP is designed to be durable while maintaining high performance.

## Features and Benefits

- » Used to join two cables together or adapt hardware interfaces when adapting between BNC and 'N' type fittings
- » Centre pin gold plated
- » Standard 5/8-24 UNEF-2A thread
- » Frequency range to 3GHz (maximum)
- » Brass body with nickel plating
- »  $\geq 500$  cycle durability

<b>Frequency Range</b>	3 GHz (Maximum)
<b>Impedance</b>	50 ff
<b>Temperature Range</b>	-40°C to +85°C
<b>Mating</b>	5/8-24UNEF-2A
<b>Durability</b>	$\geq 500$ cycle
