

UHF GPI Flexi Dipole Antenna Kit

56MM-CBU01

The CBU01 antenna kit is an independent ground 4dB* gain, portable antenna covering the UHF 470-490 MHz commercial Radio Bands with added L Bracket. Its ground independence maintains a stable radiation pattern in all mounting applications. Its robust construction ensures excellent longevity and performance. Ideal for mounting in applications where ground plane area is non-existent or severely reduced. It is flexible, compact and can be mounted anywhere on the vehicle.

Features and Benefits

- » Frequency 470-490 MHz with 4dB* gain
 - » Omnidirectional with 30W maximum power
 - » Stud mount with 5m RG58C/U with FME socket fitted
 - » Designed and manufactured in Australia
 - » Ground plane independent
 - » A compact and durable antenna with L bracket supplied for mounting.
- *dB gain reference is relative to a 1/4 wave on a ground plane

56MM-CBU01 Specifications

Frequency	470-490 MHz
Gain	4dB*
Impedance	50Ω
Radiation Pattern	Omnidirectional
Maximum Power	30W
E Plane Beamwidth	80 Deg
Length	390mm
Weight	345g
Termination	Stud mount with 5m RG58C/U + FME Socket fitted
Construction	Flexible Nylon Radome

*dB Gain reference is relative to a 1/4 wave on a ground plane
