10mm RF Cable Earthing Kit for RG213/LL-LMR400 Cable

56MM-EK01

The EK01 is a base station antenna mounting hardware cable earthing kit for 10mm cable suited to RG213 and LL-LMR400 cables. Weatherproof with low contact resistance and high discharge current.

Features and Benefits

- Designed for 10mm flexible coaxial cables such as RG213 or LL-LMR400 cables (Matchmaster E213/E400 cables)
- Grounding cable length 1000mm
- Contact resistance <= 1mOhm
- Insulation resistance >500MOhms
- Nominal discharge current >= 70kA
- RoHS compliant 2002/95/EC
