

10mm RF Cable Earthing Kit for RG213/LL-LMR400 Cable 56MM-EK01

The EK01 is a base station antenna mounting hardware cable earthing kit for 10mm cable suited to RG213 and LL-LMR400 cables. Weatherproof with low contact resistance and high discharge current.

Features and Benefits

- » Designed for 10mm flexible coaxial cables such as RG213 or LL-LMR400 cables (Matchmaster E213/E400 cables)
- » Grounding cable length 1000mm
- » Contact resistance $\leq 1\text{m}\Omega$
- » Insulation resistance $>500\text{M}\Omega$
- » Nominal discharge current $\geq 70\text{kA}$
- » RoHS compliant 2002/95/EC
