

2m Pre-terminated Lead LMR-LL195 'N' Type Plug to SMA Plug 56MM-FL50-02

FL50-02 is a 2m pre-made LMR-LL195 low loss coaxial lead with an N-type male crimp to SMA male connection. Both connectors have glue type heat shrink protecting cable entry from ingress.

Features and Benefits

- » FL50-02 can be used with many of our cellular antennas to connect to Cel-Fi units or modems
- » Pre-terminated cables, no tools required
- » 2m LMR-LL195 low loss coaxial cable
- » VSWR: ≤ 1.2 (0-3GHz)
- » N-type male to SMA male terminations
- » Simple and easy to use and install

56MM-FL50-06 Specifications

Characteristic Impedance	50 Ohms
VSWR	≤ 1.2 (0 - 3 GHz)
RF Loss (Approx.)	
800MHz	2.23dB
2000MHz	7.74dB
