

# 6m Pre-terminated Lead LMR-LL195 'N' Type Plug to SMA Plug 56MM-FL50-06

FL50-06 is a 6m pre-made LMR-LL195 low loss coaxial lead with an N-type male crimp to SMA male connection. Both connectors have glue type heat shrink protecting cable entry from ingress.

## Features and Benefits

- » FL50-06 can be used with many of our cellular antennas to connect to Cel-Fi units or modems
- » Pre-terminated cables, no tools required
- » 6m LMR-LL195 low loss coaxial cable
- » VSWR:  $\leq 1.2$  (0-3GHz)
- » N-type male to SMA male terminations
- » Simple and easy to use and install

## 56MM-FL50-06 Specifications

Characteristic Impedance	50 Ohms
VSWR	$\leq 1.2$ (0 - 3 GHz)
<b>RF Loss (Approx)</b>	
800MHz	2.23dB
2000MHz	7.74dB
