

# 10m Pre-terminated Lead LMR-LL400 'N' Type Plug to SMA Plug 56MM-FL50-10

*For the Best*

FL50-10 is a 10m pre-made LMR-LL400 low loss coaxial lead with an N-type male crimp to SMA male connection. Both connectors have glue type heat shrink protecting cable entry from ingress

## Features and Benefits

- » FL50-10 can be used with many of our cellular antennas to connect to Cel-Fi units or modems
- » Pre-terminated cables, no tools required
- » 10m LMR-LL400 low loss coaxial cable
- » VSWR:  $\leq 1.2$  (0-3GHz)
- » N-type male to SMA male terminations
- » Simple and easy to use and install

## 56MM-FL50-10 Specifications

Characteristic Impedance	50 Ohms
<b>LMR400 / LL400 Low Loss Cable</b>	
<b>N Plug to SMA Plug</b>	
RF Loss (Approx.)	
800MHz	2.6dB
2000MHz	4.5dB
