

# 'N' Type Socket to SMA Socket Adaptor 56MM-NS-SMAF

The NS-SMAF is a straight-bodied 'N' Female to SMA Female adapter designed to connect a Male 'N' type interface to a Male SMA interface. Supporting frequencies up to 6 GHz, the adaptor is suited to many installation applications. Made from high-quality nickel-plated brass, the NS-SMAF is designed to be durable while maintaining high performance.

## Features and Benefits

- » Used to join two cables together or adapt hardware interfaces when adapting between 'N' type and SMA fittings
- » Centre pin gold plated
- » Solid one-piece outer body for ingress protection and durability
- » Frequency range to 6GHz (maximum)
- » Brass body with nickel plating
- »  $\geq$  500 cycle durability
