‘F’ Female to IEC Male Right Angle Adaptor (2 Pack)

DA-A14H2

The DA-A14H2 is a convenient two-pack of ‘F’ type female to IEC (PAL) male right-angled adaptor, adapting any ‘F’ type male connector by 90 degrees. The DA-A14H2 can assist connections from wall plates or the back of TVs, or other devices where the cable bend radius is restricted. The DA-A14H2 is suitable for use up to 1000Mhz.

Features and Benefits

- Used to adapt ‘F’ type male connections to IEC (PAL) male with 90-degree bend radius
- Perfect to use behind TV cabinets and wall-mounted TVs to connect to wall plates in tight spaces
- No tools required
- High-quality nickel-plated finish for long-life corrosion resistance
