

'F' Female to IEC (PAL) Male Adaptor (2 pack) DA-A22

The DA-A22 is a twin pack of 'F' type female to IEC (PAL) male adaptors, which adapts any 'F' type male connector to a PAL male connection. In addition, the DA-A22 can adapt lead ends ready for connection to IEC (PAL) female receivers (TVs, tuners, wall plates, etc.) or any other application where you need to convert an 'F' type male connector to a PAL male connection.

Features and Benefits

- » Convenient twin pack
- » Used to convert 'F' type male connectors to IEC (PAL) male
- » No tools required
- » High-quality nickel-plated finish for long-life corrosion resistance
- » All metal construction for durability
