

'F' Male to IEC (PAL) Female Adaptor (2 Pack) DA-A32

The DA-A32 is a twin pack of 'F' type male to IEC (PAL) female adaptors, which adapts any 'F' type female connector to a PAL female connection. In addition, the DA-A32 can adapt lead ends ready for connection to IEC (PAL) male receivers (Tuners, FM 75 Ohm connections etc) or any other application where you need to convert an F-type female connector to a PAL female connection.

Features and Benefits

- » Convenient twin pack
- » Used to convert 'F' type female connectors to IEC (PAL) female
- » No tools required
- » High-quality nickel-plated finish for long-life corrosion resistance
- » All metal construction for durability
