

OM4 Pigtails are ideal for quickly splicing the required connector to your network. 50/125 OM4 multimode fibre optic cable is suitable for connecting 40G BIDI SR, 10G SR, QSFP+, SFP+ transceivers, etc., for 10G/40G/100G Ethernet connections and is the preferred fibre specification for 40G/100G Ethernet connections. Suitable for direct terminating to your network devices or patch panels.

Features and Benefits

- » Rainbow international standard coloured packs
- » SC and LC individual 2m long pigtails for OM4 fibre
- » Crush and kink resistant
- » Precision connectors ensure consistent low loss
- » Flexible and abrasion-resistant LSZH (riser) jacket, durable for indoor use
- » Low smoke zero halogen

Product Code	Type	Colour	Length
20MM-PTM4SC-2	SC Simplex	1	2m
20MM-PTM4SC-2-6	SC Simplex	6	2m
20MM-PTM4SC-2-12	SC Simplex	12	2m
20MM-PTM4LC-2	LC Simplex	1	2m
20MM-PTM4LC-2-6	LC Simplex	6	2m
20MM-PTM4LC-2-12	LC Simplex	12	2m
