

WISI VX and LR Series Pluggable Modules

WISI's range of amplifiers and fibre nodes offer flexibility for your installations with optional pluggable diplexers, splitters and taps for ultimate flexibility in your network builds. The taps and diplexers are available in various values to match your network's build requirements.

Features and Benefits

- » Pluggable output splitters and taps to help balance your network builds
- » Pluggable upstream and downstream diplexer filter options
- » 27-90V AC power insertion kits - XE29
- » Bluetooth antennas for wireless control via iOS and Android devices using HFC manager application
- » Additional modules available on request

Pluggable Taps and Splitters	
Part Number	Description
14MM-XM25B0044	WISI Pluggable 4/4dB Output Splitter for VX26H, LR2x Series
14MM-XM25B0082	WISI Pluggable 8/2dB Output Tap for VX26H, LR2x Series
14MM-XM25B0131	WISI Pluggable 13/1dB Output Tap for VX26H, LR2x Series
14MM-XM51B	WISI Pluggable 4/4dB Output Splitter for VX29B, VX5x Series
14MM-XM53B	WISI Pluggable 8/2dB Output Tap for VX29B, VX5x Series
14MM-XM55B	WISI Pluggable 13/1dB Output Tap for VX29B, VX5x Series
14MM-XM56B	WISI Pluggable 18/1dB Output Tap for VX29B, VX5x Series
Pluggable Diplexer Filters	
Part Number	Description
14MM-XE50B0650	WISI Diplexer Filter 65/108MHz for VX5x and LR2x Series
14MM-XE50B0850	WISI Diplexer Filter 85/108MHz for VX5x and LR2x Series
14MM-XE50B2040	WISI Diplexer Filter 204/258MHz for VX5x and LR2x Series
14MM-XE50FA	WISI Diplexer Filter 65/85MHz for VX5x and LR2x Series
Adaptors and Accessories	
Part Number	Description
14MM-XE29	WISI Cabling Kit for External Power Insertion for 14MM-VX29B
14MM-LB01	WISI Bluetooth Antenna for Compatible VXxx and LRxx Series
